At all these meetings the new system of balloting will be explained.

I. ROGERS Chairman

THE Republicans of McKean county are aroused and the Democrats are correspondingly sick. There's no discounting the result in this county when a President is to be elected.

IT IS SAID that Guy Pinchot will pay the $1,000 awarded Detective Wilmouth by the Supreme Court from ex Chairman Huston as the latter got nothing out of the victory of 82.

IT is laughable to see the splurge being made by the Democratic press over Wayne McVeagh's announcement that he will vote for Cleveland. He voted for him four years ago and why should he not vote for him now.

WE give Major Harvey and Weight due notice that McKean county will not look to the Democratic State Printer for its ballots. We will have enough to give Harrison a thousand majority and about every man on our ticket.

LORD TENNYSON England's great poet poet for a generation past, died in London on Saturday last. He was buried beneath the pavement of the historic Westminister Abbey on Wednesday of this week in the presence of a vast concourse of people.

MR. MCCLURE has filed objections in Harrisburg against Judge Olmsted being the Democratic nominee of Potter county. Supposing he succeeds in having the name stricken off that nobody's Democratic ticket, who will then be their nominee? Does he think for one moment that he can prevent the Democrats of Potter county from voting for Judge Olmsted by any such manoeuvering? If so he must have a very low estimate of their intelligence.

THERE are some figures that should put a stop forever to the wailings of the calamityites who claim that farmers are growing poorer. Of every 100 farms in the state of Maine, 8 on an average are hired, 30 are owned under incumbrance and 79 are owned without incumbrance. Of every 100 homes and attached out farms, on the average 38 are hired, 10 are owned under incumbrance and 36 without incumbrance. If the farmers are getting poorer, these figures don't betray it.

WE are glad to see Warren Gardner, Rev. Geo. Chelwyn and other leading Alliance workers come out boldly for Olmsted. So far at least they are right. The position of these gentlemen will insure Olmsted at least nine-tenths of the People's party vote. We are also pleased to learn that these gentlemen are doing all in their power to correct the outrageous lie being circulated through the county by the friends of the McKean county candidate that in a few years Olmsted will, if elected retire with a pension for the balance of his life. This falsehood is being circulated for the purpose of catching truthful voters. The *Enterprise* desires to say once and for all that no such law exists in Pennsylvania. Olmsted and every other Judge's salary in Pennsylvania stops when he retires. Mr. Dunn and his liar should come off the farmers of this county are not to be run upon this question as the friends of McClure assume them to be. If McClure has any regard for his reputation as a lawyer he will cease misrepresenting to the voters of this District that Judges at certain ages retired upon a salary. Upon the contrary the pay stops when work stops. *Conemaugh Enterprise*

IN reply to many inquiries on the subject we will state that the Democratic general pension bills have been laws so far during Harrison's administration. Act of March 1890 increase the rate of total helplessness to $72. Act of June 27 1890 pensioning all losses in a fair relief certain minor soldiers from the charge of desertion, approved March 3 1891 which acts redu the three years period of actual service approved March 3 1891 act July 14 1892 provides a $50 rate upon proof of service of partial helplessness. July 5 1892 includes certain Central Pacific railroad employees and last act August 5 1892 pensioning nurses and last act extending for two years the provisions of March 3 1891 relieving certain officers and soldiers of the charge of desertion. This record it will be seen is quite an extensive one.

THE Harrisburg *Telegraph* in reviewing the article of Mr. Bannon for state senator says that he was the unsuccessful acknowledged candidate of the Standard Oil Company and it is regretted that that Company purchased his nomination. The *Telegraph* does not know that the foregoing statement is a wilful malicious lie, yet it is nothing but that. That paper is the influence which upon Mr. Bannon in the town where it is published for there the candidate grew up to manhood and there his vote will be larger than President Harrison's. If the lie is being circulated through the district and where Mr. Bannon is not known and the character of the paper not understood it might have some effect therefore it is noticed.

AN illustration of the difference between a free trade editor who talks long free trade and a free trade editor talking sense is given by the following extract from a Labor Day Journal in the Philadelphia *Press* of which Col. A. K. McClure is the editor.

The cold fact is that the working classes in this country are much better off than elsewhere and that the working people of the United States grow richer by every increase of prosperity. The average people enjoy more prosperity and enjoy more prosperity than in any other nation of the civilized world. Wages are higher and more certain than in any former period. We wonder if Col. McClure would have talked in this vein had he been given the Democratic gage in print last autumn by Governor McKinley. *Inquirer*

DAVE MARTIN of Philadelphia the Pennsylvania member of the Republican National committee is very busily assisting in the work of the Committee at headquarters in New York. He is unearthing Democratic rascals too in that city consequently the Democratic newspapers over there are howling. The reason is that he will be driven back to Philadelphia but leave work before worth a cent. He is there for the purpose of finding out how many false registrations and illegal naturalizations are being piled up in that rotten hamlet and he proposes to remain there until the scoundrels who are engaged in that nefarious business are in the clutch of the law. We can wait the Democrats that the work will be well done.

ANOTHER of the lies which certains an idea of voting for Cleveland in November should prefer over this endorsement of his candidacy by the Dunham N. C. *Hill* and then vote for Harrison. The expression fraud is the greatest of the age and Cleveland struck the keynote in the face. He should be given a chance to put on again. *Tin manufacturer*

OUR Harrisburg correspondent calls attention to the trick which Harrity and his gang are playing to prevent the Republican counties from being supplied with tickets at the coming election. It won't work. The Republican counties will have ballots enough to bury the Democracy under a majority of not less than 75,000.

THE ballot which we publish on the fourth page is one that can be studied with profit by every elector. It may not be exactly like the one which his lordship Harrity will finally decide shall be used but in the essential features it is accurate. Of course the names are fictitious and the ticket is not to be used on election day but it is all right as an object lesson.

REPUBLICAN meetings were held the past week in Sawyer City, Duke Centre, Custer City, Simpson and Mt Alton. Candidates Bannon Burdick, North and Howells assisted by other county speakers, are attending these meetings and expounding the gospel of Republicanism, and their efforts will tell on election day.

AND still, remarks the New York *Herald*, business continues provokingly prosperous.

TO MARK A BALLOT.

AN INTERESTING OBJECT LESSON FOR REPUBLICAN VOTERS.

Plain Directions as to the Proper Method of Marking the New Official Ballot in Order to Vote a Straight Party Ticket or to Split the Ticket.

Elsewhere in this paper will be found a facsimile of the new form of ballot that will be used on November 8th in accordance with the recent decision of Attorney General Hensel in regard to it. It will be noted that with the exception of the names in the Republican state ticket the names that appear in this sample ballot are not those of the candidates but are the names that will be printed on the official ballot.

Attached to the face of the envelope in which the new ballots are to be carried to the polls and handed to the judges of election will be found the following directions which are printed in full for the benefit of those voters who may not have the time to read the law governing the matter:

"Any elector who desires to vote a straight party ticket may make a cross (X) mark in the square at the head of the party ticket, or in the square to the right of the name of the party, or he may write the name of the party in the blank space at the head of the ticket, or he may fold the ballot so that the name of the party ticket voted will be exposed to view, and deliver the ballot so folded to the judge of election. Any ballot so folded or marked shall be counted as a vote for the candidates of the party designated, except for such persons whose names may be erased therefrom, and the names of such persons substituted thereon, and except for such candidates for whom a different party ticket is marked as a vote is cast. Any elector may tear or deface any ballot which he may receive, and obtain another in the place thereof, before depositing the same in the box, if he shall return to the judge of election the ballot which he may have received."

"Any elector who desires to vote for candidates for different offices, or for candidates of different parties, shall prepare his ballot by marking a cross (X) mark in the square to the right of the name of each candidate for whom he desires to vote, or by writing the name of each such candidate in the blank space provided for that purpose."

"Any elector who desires to vote for a person whose name is not printed on the ballot shall write or paste the name of such person in the blank space provided for that purpose."

"Any elector who shall mark more than one ballot at the same election, or who shall place any mark upon his ballot by which he may afterwards identify the same, or who shall receive a ballot from any person other than one of the judges of election, or who shall vote more than once at the same election, shall be guilty of a misdemeanor, and upon conviction thereof shall be sentenced to pay a fine not exceeding five hundred dollars, or to undergo an imprisonment not exceeding two years, or both, at the discretion of the court."

"Any elector who shall knowingly violate any of the provisions of this act shall forfeit the right to vote at such election."

"Any elector who shall receive a ballot and shall leave the room without depositing the same in the box, shall forfeit the right to vote at such election."

"Any elector who shall vote a ballot other than the official ballot, except as provided by this act, shall forfeit the right to vote at such election."

"Any elector who shall, except as provided by this act, show his ballot after he has received it, to any person in such manner as to reveal the contents thereof, before the same shall be deposited in the box, shall forfeit the right to vote at such election."

"Any elector who shall, except as provided by this act, place any mark upon his ballot by which he may afterwards identify the same, shall forfeit the right to vote at such election."

"Any elector who shall, except as provided by this act, receive a ballot from any person other than one of the judges of election, shall forfeit the right to vote at such election."

"Any elector who shall vote more than once at the same election, shall forfeit the right to vote at such election."

"Any person who shall, directly or indirectly, by himself or herself, or by any other person, in any manner, receive or agree or contract for any money, gift, loan, or other valuable consideration, office, place or employment, for himself or herself or any other person, for voting or agreeing or contracting to vote at any election, or who shall, directly or indirectly, by himself or herself, or by any other person, in any manner, give or promise or agree to give to or procure, or agree or contract to procure for any person any money, gift, loan, or other valuable consideration, office, place or employment, for the purpose of procuring or obtaining the vote of such person, or of any other person,

Ben Maxwell Acquitted.

The last two days of last week were occupied almost exclusively with the two indictments against Rev J Calvin Mitchell formerly of Kane the first for larceny of a small amount of money from a Sunday school contribution box and the second for obtaining money under false pretenses. The trustees of the Kane Baptist Church, A V Gillette, C V Gillis and J H Hopkins were the prosecutors. Rev Stowell preached in that church during the years 1890 and 1891. Trustees were returned from the grand jury in both cases. The first case in the court of larceny the court after hearing the testimony directed the jury to return a verdict of not guilty. The second case of obtaining money under false pretenses, charged the defendant with receiving $75 from his church under the following circumstances. When Rev Stowell took charge of the Kane church it had but a small membership and the State Board of Baptist missions agreed to give $150 dollars toward the payment of the pastor's salary. In fact Mr Stowell induced the congregation, which had depleted in numbers and was fluctuating that the board had withdrawn this donation and the church would have to raise that much more for his salary. This they did. They claimed they afterwards ascertained that Mr Stowell had received money from the State board. It was Saturday afternoon at 5 p. m. when Judge Morrison closed his charge to the jury, which was entirely impartial, but gave a clear exposition of the law which should govern the jury in its decision. The jury retired and in about fifteen minutes returned with a verdict of not guilty and prosecutors to pay costs.

Teacher's Institute.

The superintendent Eckels has every reason to feel proud of the institute which is now in session at the court house in this borough.

It was formally opened on Monday afternoon at two o'clock when Mr. Eckels in a well worded address welcomed the visitors to the annual convention and outlined the programme for the week's work. The number of teachers enrolled during the week was 238.

A number of interesting papers have already been presented and numerous topics discussed, all of which show that the teachers not only have an interest in their work, but that they are ever ready to respond to the requirements that make a successful teacher. The latter teachers are among the best that have visited this county on a like occasion, and the evening entertainments, which have been largely attended, were of a high order of excellence. The sessions will close at noon to-day.

The Fly in the Ointment.

The colored voter is objectionable to Democrats when he is a Republican voter If he will switch off he is an independent movement and the whiteaway Democrats will be after them If he can be wheedled into voting the Democratic ticket the exercise of his rights as an elector will not dull them with any dark forebodings concerning negro supremacy Obey them Democrats victory as the result of the colored vote and they will enjoy the fruits thereof just as much as though it were altogether a Caucasian triumph. Wheeling Intelligencer

Trying to Conceal the Issue.

A Republican victory as decisive as that of 1888 would still leave the house in the control of the Democrats by a decisive majority What is the use then of talking about a force bill being introduced in the coming session: The real motive of so doing is to conceal the free trade issue from the rank and file of the Democratic voters in the cities and towns.—Chicago Tribune

An Absurd Presidential Impossibility.

Senator Hill says he believes in both free trade and protection, and he is trying to straddle both horses. It is a very pitiable spectacle which he makes of himself in this Brooklyn speech, especially as he utterly ignores the financial question. What a man Mr. Hill is anyway for a party seriously to consider as a presidential candidate!—Minneapolis Journal.

Just Watch the Country Districts.

Calculations in regard to the vote of New York state are almost entirely based upon the action of Tammany when as a matter of fact the real source of danger to the Democratic ticket is in the interior of the state Tammany has a strong desire to kill off the governor and put managers of the city and is therefore forced to make a show of supporting the ticket The Hill following in other parts of the state and it is a very large one—has no such inducements to do it to the party, and will reserve the privilege of balking at the polls. The usual Democratic majority will not be cast in New York city this fall but the great falling down in the Democratic vote will be in the Hill districts in the country outside of the city.—Albany (N.Y.) State Journal.

No Designing or Shuffling.

The Democrats who seek to make an issue of the force bill and to place it in the front in the canvass are finding more opposition to their party than they expected. A large and steadily growing element of the Democracy think that it is a blunder to attempt to conduct the campaign on this line, and contend that the real issue is the tariff. Undoubtedly this is the logical and the honest view of the situation. This is the only line on which the parties can make a clean cut and well marked division. The tariff is an issue that is always with us and on which each party has placed itself on record in such a way that neither can dodge nor shuffle.—Rutland (Vt.) Herald.
